

## Help! The animals are in the crocodile's mouth!

If the animals had read the notes below they might have been able to stay away from danger. Can you read the notes? Draw a picture for each one in your workbook.

*If you do not have a map do not go.*

*Do not run in the sun.*

*I met a crocodile.*

*A crocodile will nip.*

*Do not have a nap.*

*Do not let a crocodile see you.*

*It is not fun.*

Now have a go at writing your own warning notes to tell the animals about the dangers they might face in a jungle. If you type your answers onto the sheet on TEAMS you can send it back to me. Or you can put a photo of your work on to Tapestry, either way is lovely!
