

St John the Baptist CE Primary School & Nursery Knowledge Organiser—Science

Topic: - Habitats

Class/Year Groups: Year 1

Term: Autumn

What you already know?

Pupils will have some understanding from EYFS of animal names. Linking to visits to forest school.

What you will learn:

Mammals

Birds

Fish

Reptiles

Amphibians

Vocabulary

Carnivore	Animals that mostly eat other animals (meat) are carnivores
Omnivore	Animals that eat both plants and other animals are omnivores.
Herbivore	Animals that only eat plants are herbivores.
Amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
Habitat	A habitat is the natural place something lives. A habitat provides living things with everything they need to survive such as food, shelter and water.

National Curriculum Objectives:

- To identify and name some plants and animals in their habitats, including micro-habitats
- To identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other
